

Netgíró WooCommerce payment plugin installation

1. Upload or install Netgíró WooCommerce plugin through Wordpress plugin manager. Activate plugin under Plugins site. Plugin will now be visible in WooCommerce. Next enable Netgíró plugin under WooCommerce/Settings/Payments. Click Manage.

The screenshot displays the WordPress admin dashboard on the left and the WooCommerce settings page on the right.

WordPress Admin Dashboard (Left):

- The **Plugins** menu item is highlighted in the sidebar.
- The **Add New** link is visible under the Plugins section.

WooCommerce Settings (Right):

- The **Payments** tab is selected in the top navigation bar.
- A notification banner at the top states: "Your store has been updated to the latest secure version of WooCommerce. We worked with WordPress to deploy security updates related to PayPal Standard payment gateway for stores running WooCommerce (version 3.5 to 6.3)." with [Learn more](#) and [Dismiss](#) buttons.
- The **Payment methods** section shows a list of installed payment methods:

Method	Enabled	Description	Action
Direct bank transfer	<input type="checkbox"/>	Take payments in person via BACS. More commonly known as direct bank/wire transfer.	Set up
Check payments	<input type="checkbox"/>	Take payments in person via checks. This offline gateway can also be useful to test purchases.	Set up
